

I-866-XS-TRASH

EXPLANATION OF BED LOADS - FLORIDA TRUCK

BEDLOAD - TOTAL TRUCK BED LENGTH: 14 FEET

We use **BEDLOAD** rates for very dense materials such as concrete, or gravel. We can only load the truck to a depth of about 1 foot high, so we do not exceed the total **GVW (Gross Vehicle Weight)** of the truck. Otherwise, we can be fined by the State of Michigan for exceeding the total **GVW**.

PLEASE REFER TO OUR RATES DOCUMENT.
